OFFERING SUPPORT SERVICES

The Headstart Nursery offers a warm and nurturing environment to children who have come into contact with CASO. The program focuses on the social, emotional and cognitive skills required to integrate into the school system.

The Headstart Nursery Program advocates for the needs of Ottawa's children, youth and families with a focus on addressing parental capacity.

When a child comes into the care of CASO, the trauma of separation from their parents or primary caregivers, as well as from their siblings can be as harmful to the child as the initial concern that led to their need to be removed from the home.

The work of supporting children in maintaining positive relationships with their family members is critically important in everything we do when offering child protection services.
